

ORGANIC CHICKENS

AUSTRALIAN 100% ORGANIC FARMING TECHNOLOGY

We grow our own truly organic chicken food, free from chemical pesticides, roundup herbicides or growth enhancing antibiotics

HEALTH BENEFITS OF ORGANIC CHICKEN

Build muscles: A best non-vegetarian source of protein.

Healthy bones: Rich in several minerals such as phosphorus and calcium that help maintain bones. It also has selenium which has been known to cut the risk of arthritis.

Stress relief: It has two nutrients , tryptophan and Vitamin B5, both of which help with this.

Boosts testosterone levels: It contains zinc to help regulate testosterone levels.

Boosts immunity: Chicken soup has long been used as a home remedy for relieving cold, flu and other common respiratory infections.

Promotes heart health: Rich in vitamin B6 which plays an important role in preventing heart attacks. It helps by lowering the levels of homocysteine, one of the key components linked to an increased risk of heart attack

FROM OUR LOCAL ORGANIC FARMS.
Organically fed "Naked neck" & "Yellow broilers"
