

ORGANIC LIQUID WORM CASTING FERTILIZER

Worms Are Your Natural Engineers[©]

ALL PURPOSE NATURAL 100% ORGANIC LIVING LIQUID FERTILIZER

BREAKTHROUGH TECHNOLOGY

A breakthrough microbe-based technology in the breeding of worms is used to produce our worm-based liquid fertilizer. It is specially tailored for oil palm trees and seedlings. The beneficial microorganisms will help to soften and adjust the soil PH so as to improve it's fertility, as well as providing a higher resistance to pests and diseases. This is the key to true sustainability.

Manufactured using AUSTRALIAN VERMITECHNOLOGY

WWW.SOSORGANICFERTILIZER.COM

Our organic fertilizer is microbe-based so "less is more"! Lower NPK analysis number = higher productivity. Nutrients are released as nature intended, 'regular small meals'. See website for more details.

N : P : K
2 : 1 : 2

MIX RATIO: 1 PART FERTILIZER CONCENTRATE TO 4 PARTS OF WATER
1 TO 4
MEANS : 25 LITRES = 125 LITRES

* Use rain, river, or treated tap water
* Avoid untreated tap water as chlorine harms microbes (instructions provided)
